Impartial Hearing Officer

The compensation rate for impartial hearing officers are listed in the re-organizational minutes for the current school year and are in accordance with § 4404(1) and Commissioner's Regulations § 200.21,

The activities associated with impartial hearings which are reimbursable under this compensation rate are:

pre-hearing activities such as scheduling the hearing and determining the location, conducting pre-hearing conference calls, arranging for interpreters, witnesses, subpoenas and a stenographer and writing letters to the parties involved in the hearing;

hearing activities such as conducting the hearing, handling settlement agreements placed on the record and arranging for subsequent hearing dates;

post-hearing activities such as researching information pertinent to the hearing issues(s) and writing the decision.

In additions, travel reimbursement is not considered to be an activity associated with the compensation rates set by the Commissioner. Accordingly, in addition to the compensation rate, the School District agrees to reimburse an impartial hearing officer at the IRS per mile rate for travel, as well as reimbursement for reasonable lodging and meal expenses upon timely presentation of appropriate receipts for such expenses.
