# A Family

This year, the class of 1986 dedicates their book to two special people ... Mickey Flyzik and Kathleen Flyzik Black. You can see both father and daughter inside the walls of Bainbridge-Guilford.

# Affair

Kathi is someone we have all visited in her office at one time or another, whether it's because we feel like we're going to die from an illness or just because we need to talk. She's a special friend to all of us. Kathi knows these halls well. She attended B-G. She was a cheerleader, involved in the spirit of the team and school. Her school spirit is still shown today, through her position of the coach of the Jr. High Girls' Basketball team. During the summer Kathi can be seen on the beach of Guilford Lake. "The Boss" will either be teaching kids to dive and swim or overlooking a group as a lifeguard equipped with whistle and zinc oxide.

The second half of this dedication is to Kathi's father Mickey Flyzik. Before he was seen in the halls of B-G, he was seen everywhere from the football field to the baseball diamond. Being very athletic, he participated in many sports. (Today he can be found on any of the neighboring golf courses.)

Mickey was also involved in community events. He was an active part of Rotary. Sometimes this allowed people to see a more informal, easygoing side of him.

With thanks, we dedicate "Touch of Class" to the two of you.

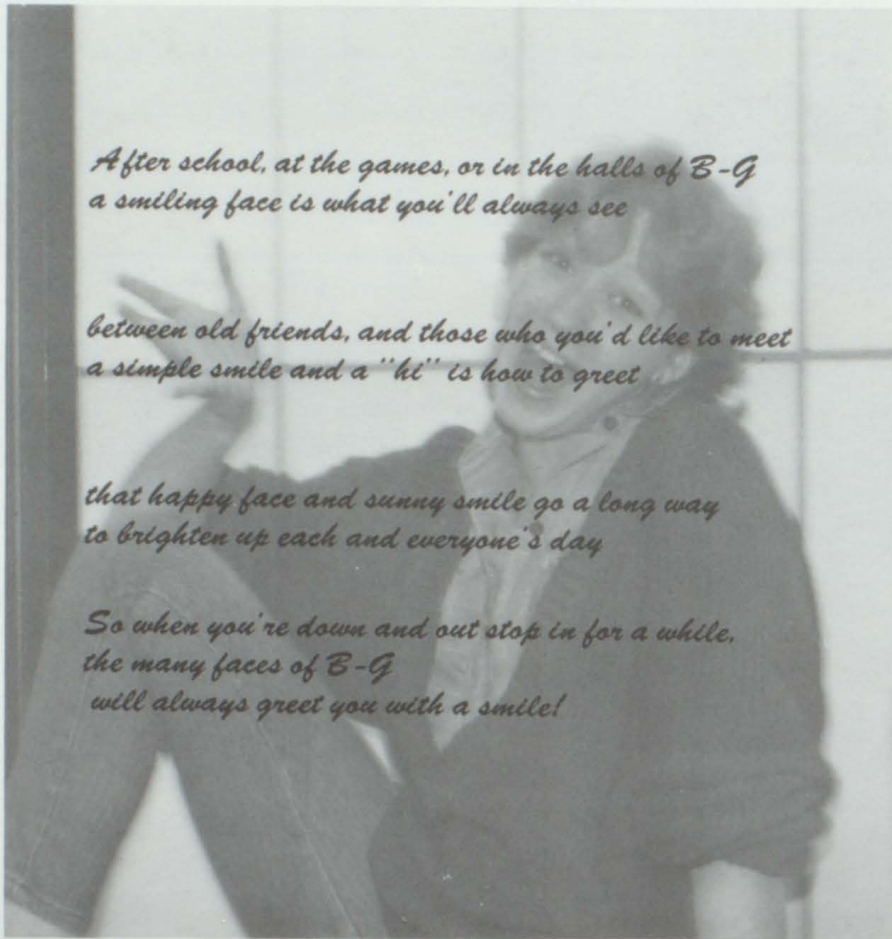

*After school, at the games, or in the halls of B-G  
a smiling face is what you'll always see*

*between old friends, and those who you'd like to meet  
a simple smile and a "hi" is how to greet*

*that happy face and sunny smile go a long way  
to brighten up each and everyone's day*

*So when you're down and out stop in for a while,  
the many faces of B-G  
will always greet you with a smile!*

*Always a  
Smile*

# Moving In Style

The students and teachers of B-G know how to drive to school with class. Whether it be cruising the streets in their very own car, or simply "borrowing" their parent's car (the students, that is), each car and driver creates its own statement.

Unfortunately, some statements are in better shape than others. Even the buses, and the students who are dropped off by their parents manage to get to school on time with a relative amount of ease and charm. Whatever the case may be, it is obvious that arriving and departing from school truly is an exercise in **"Moving In Style."** "

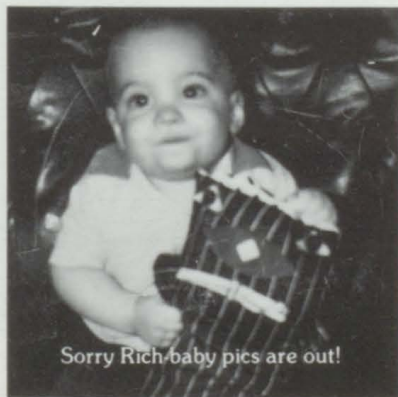

The popular shaker + beads combination.

Dan's new do!

Shakers, jewels, and still more.

Sorry Rich baby pics are out!

The 1985-86 school year has proved to bring new fashions, sayings, and musical tastes to B-G at a record setting pace. Included in this menagerie of trends are rap and dance music, the "preppy-punk" dress styles, and of course the still thriving "Madonna" and "Rambo" look. Shaker sweaters remain the most popular apparel among the girls, along with bold flower and paisley prints both on shirts and jeans. "Out for the girls are striped pants and leg warmers. For the guys, a more subtle approach is taken mostly with stone-washed denims, oxford shirts, and muted-toned sweaters. As for favorite sayings, guys are often referred to as "babes" or "yuppies," while girls are also called "babes." If something is really great one exclaims, "baby!", or "excellent!". Terms that are on there way out are "awesome," and "really?". Some of the "in" things to do are: keeping in shape at the spa, partying, and "jamming" to music. In the musical scene, Prince is still tops. Also popular are Madonna, Sheila E., Bruce Springsteen, and Huey Lewis, along with many others. Overall, the students of B-G have clearly shown that they are in tune with what is "in," and what is "out" in the world today.

Unattached — definitely in.

## The In's and Out's

# Challenger: A Memorial

The Space Age officially began twenty-nine years ago when the Soviets launched Sputnik. Since then, NASA has made terrific gains including the 1961 launching of Freedom 7, carrying Alan Shepard in America's first manned space launch. Despite the tragedy of Apollo 7 in 1967 when three men were killed we continued to pursue our goal of landing man on the moon before 1970. This vision was realized in July, 1969, when the Eagle touched down on the moon with Edwin Aldrin, Neil Armstrong, and Michael Collins on board.

Since that flight, NASA has blasted forward, especially with the shuttle program. Twenty-four successful shuttle voyages have been witnessed by America's children, romantics and stargazers. Unfortunately, this flawless record was marred when the January 28th launch ended in tragedy.

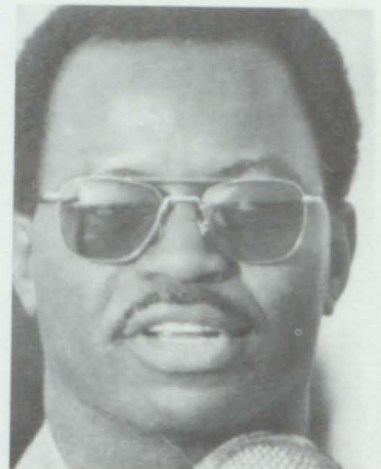

The five men and two women who died in the Challenger explosion are seen as heroes, leaders of our generation. Along with the six astronauts, on board was the first "civilian," teacher Christa McAuliffe. They took the risk but as astronaut Ronald McNair once said, "You can only become a winner if you are willing to walk over the edge." We will remember the services of these people for many years and in many ways, as explorers, history makers, and the teacher who wasn't afraid to try.

Michael J. Smith

For the first part of this year, life at B-G was enhanced again by **Mauritz Gildenhuis**. As an exchange student from South Africa, he participated in many activities including Ski Club and track. He left Bainbridge on December 28th to a brief stop in Europe and then home. His open, outgoing personality and cheerful sense of humor made him a welcome addition to our class.

**Report card** day again . . . It's so confusing.

Some teachers want the report card out of the envelope.

Some like it kept in the envelope.

# The Sean Penn Page

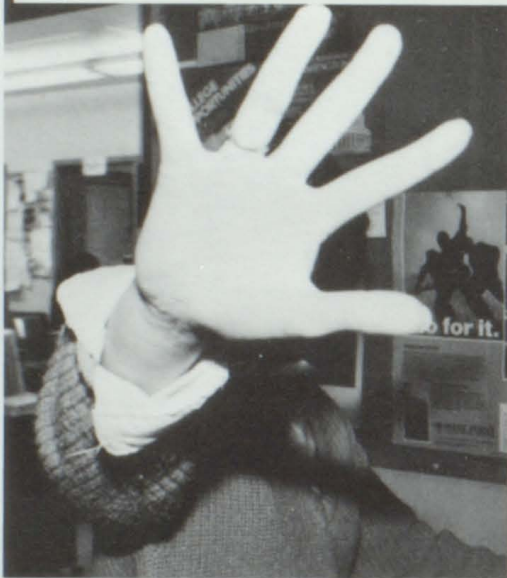

It all began in *February 1985* when Sean Penn and Madonna started dating. Since then, they've been avoiding cameras like people who owe music lessons avoid Mrs. Niles. When the two married in August 1985, Sean started the latest trend of shielding his face from the camera, following in the footsteps of great criminals and ex-presidents. The big question is . . . what is Sean hiding? Acne? Herpes Simplex 1? Regardless, the youth of Bainbridge have followed in full force.

The enemy

Multiple shielding

Could this be Madonna?

# Dancin' in the Street...

It was a banner year

On June 28th in Enfield they marched.  
The Blues took first, but that was only the start.  
They marched through Schenevus, Richfield Springs and Trumansburg too  
And as you would expect they of course, took home the blue.  
Unfortunately through the season our band did stumble  
Taking second in Allegany, Cape Vincent, and Rochester to be humble.  
But that was the end of their losing for the year  
For the blues are nothing less than dominant around here.  
They are dazzling and impressive to the eyes  
As they stormed both places taking first prize.  
And so the season ended in their home towns as all others did  
Giving their best performance for their fans both adults and kids.  
Congratulations **B-G Blues!**

Every year Mr. Ashworth leads a group of Juniors and Seniors in the endeavor of **Mock Trial**. This year's fictional court case, created by the state for competition involved an assault and robbery. Helping out the team is Mr. Dave DeClue, a local attorney. Students play the roles of witnesses and attorneys on the side of the prosecution or the offense. Although it's time consuming, it is a lot of fun.

Olympics of the Mind Team.

The assembly team and their coach.

The high school level **Olympics of the Mind Team**, in its first year of competition captured third place in their division at regional Olympics of the Mind competition. A total of twenty-nine schools sent teams who are required to present solutions to both long-term and spontaneous problems. The team consisted of Gretel Enck, Steve Lothridge, Chris Heil, Steph Bunting, Claudette Newman, Bill Cook, and Dan Derr. The coach was Mrs. Watkins. The B-G Technocrats team choose to produce an innovative product called the **Pillotine**, an aspirin-splitting device designed to look like the French guillotine. Special thanks must go to Mr. and Mrs. Mark Watkins, Mr. Archie Stockwell, and Jim Lyons. The Olympics of the Mind is a worldwide annual competition designed to foster creative thinking skills in students. The B-G Board of Education is also to be commended for their support of this unique and laudable program.

# *Classy Combos*

I, never thought I'd feel this way  
And as far as I'm concerned,  
I'm glad I had the chance to say —  
that I do believe I love you.

And if, I should ever go away,  
well then close your eyes and try to feel the way we do  
today  
and then if you can't remember . . .

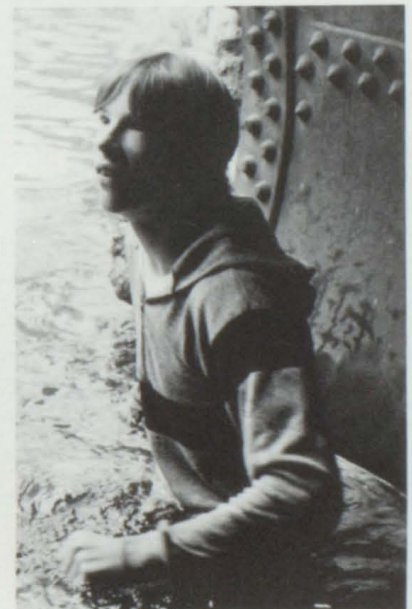

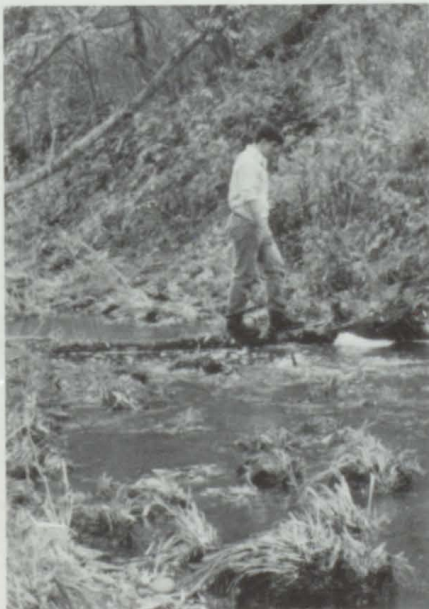

Keep smilin,  
Keep shinin  
Knowing you can always count on me,  
for sure, that is what friends are for  
in good times, in bad times  
I'll be on your side, forever more.  
that's what friends are for.

# *an adventure into the wild*

It happens every year. A new class of tenth graders learn how to survive in the wilds of west Bainbridge. Whether they build campfires or go for a dip in the stream, it's something new each season. For those who have made it through, there are memories of walking endless miles through the snow and trying to cook a cheese sandwich over the fire. For those who see it in their future, there is the chilling thought of an April or October swim. One thing that can be said, however, is that Mr. Vredenburg has taken steps to provide a most unique experience. **"The Biology Field Trip"**

OK, where's Grumpy?

Tim never gets the gal.

Future Wall Street Tycoons?

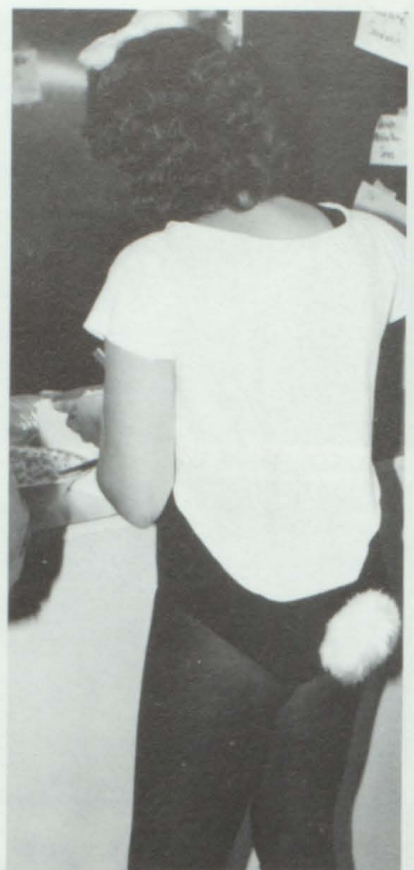

A strange phenomenon is upon us. It seems to occur every year around the same time, the end of October. It is what is known by ghosts, goblins, and punk-hearted youth as **Halloween**. Again this year we have been bombarded by a healthy dose of monsters, babies and Dee Sniders. It is the one day of the year that we are free to reveal our inner selves and that we do. It is a day to laugh at ourselves and each other and have an overall good time.

# Cover Designer

Our cover artist for this year's yearbook is Jeff Price. As a sophomore, Jeff plays percussion and is active in tennis and volleyball. Jeff has been an art student throughout high school and even hopes to become an art teacher in the future. When asked what his inspiration for his artwork is, he simply replies, "I draw what is in my head." Along with art, Jeff also enjoys pizza, surfing, Howard Jones, and "places other than Bainbridge." Many thanks to Jeff for sticking with B-G, and adding his own "touch of class" to the 1986 Echo.

**Laurel Grasso**, who left all of us behind to venture into the *Dark Continent*, has been having a great year. For the past year, she has lived in South Africa as a Rotary Exchange Student and it is rumored that she has led the life of luxury. In the *Land of diamonds*, why not? Now that's "class." Despite the violence there in the past months, it remains a beautiful land. Laurel has been having a great time and encourages everyone interested to try and become an exchange student. With this tremendous opportunity does come homesickness but she says it's worth it. She plans to come home to graduate with her class this year. So to you, Laurel, welcome home!

# *A taste of the Exotic*

Isabel Rodriguez, who arrived in August, brings to B-G some Spanish flair. Her home is in Torrevavega, Spain, where she lives with her parents and three sisters. Isabel loves to read, play sports, and listen to music. Her favorite subjects are Math and Physics, right on target — for her future study of Engineering in Madrid, Bueno Suerte Isabel!

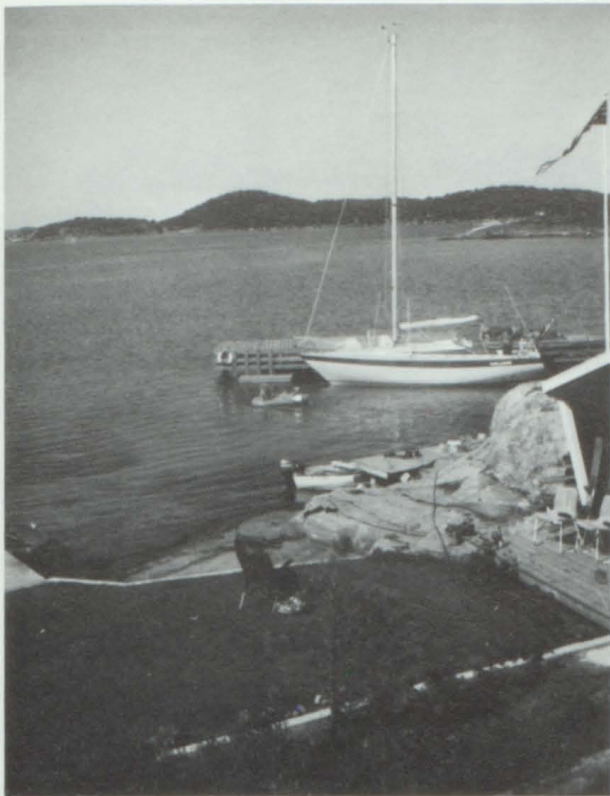

**Federico's Family** — *in the front* — Almudena, Unis, Constanga, *Back* — Padre Federico, Madre — Rosario, Maria

Federico Salas, also from Spain, comes from a family of seven. His brother, three sisters and parents all make their home in Madrid. "Freddie" is very active and enjoys skiing, tennis, sailing, and music. His favorite classes here are French, metal shop, and gym. When he returns to Spain, Federico wishes to study Law and French.

Thanks to all of the exchange students for bringing B-G a touch of foreign class.

Lasse's summer home.

Lasse Groedum departed from Kristiansand, Norway and arrived in New York on August 14, 1985. Leaving behind him his three sisters and his parents, he was eager to begin his new life in America. The subjects which Lasse enjoys most here at B-G are Computer Programming, french, and gym. His hobbies at home include waterskiing, surfing, and hiking. After graduation Lasse hopes to be a technical engineer. "We wish you luck Lasse."

Our summer residence — Lasse is in the sailboat.

Lasse's house in Norway.

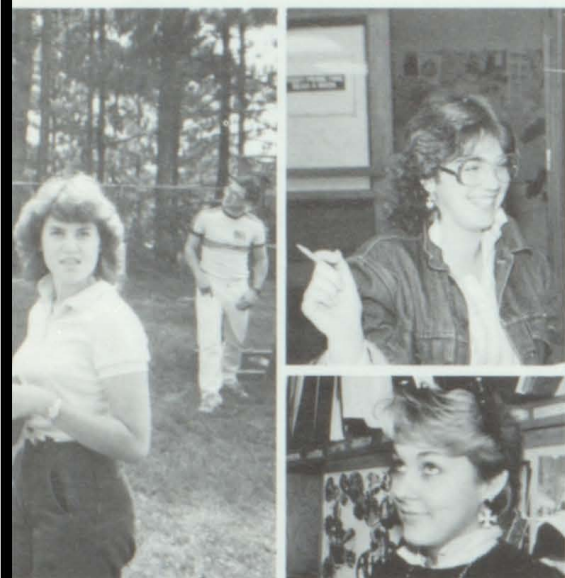

Friends from Norway.

Lasse's family — His oldest sister Heidi, sister Linda, mother Ingrid, little sister Beate and Lasse.

Let's dance in style,  
 Let's dance for a while,  
 Heaven can wait,  
 We're only watching the skies  
 Hoping for the best  
 But expecting the worst  
 Are you gonna drop the bomb or not?  
 Let us die young or let us live forever  
 We don't have the power  
 But we never say never  
 Sitting in a sandpit,  
 Life is a short trip  
 The music's for the sad men  
 Can you imagine when this race is won,  
 Turn our golden faces into the sun  
 Pruning our leaders,  
 We're getting in tune  
 The music's played by the madmen

Forever Young, I want to be forever young  
 Do you really want to live forever  
 Forever and ever

Some are like water,  
 Some are like the heat  
 Some are a melody  
 And some are the beat  
 Sooner or later they all will be gone  
 Why don't they stay young  
 It's so hard to grow old without a cause  
 I don't want to perish like a falling horse  
 Youth like diamonds in the sun  
 And diamonds are forever  
 So many adventures couldn't happen today  
 So many songs we forget to play  
 So many dreams swinging out of the blue  
 We'll let them come true

**Forever Young . . .**

The **1986 ECHO** staff wishes to thank many people who's input and assistance have made this yearbook a reality. Thanks go to chief editor **Gretel Enck** and the editorial staff of **Stephanie Bunting, Denise Georgia, Denise Mertz, Rachael Reynolds** and **Heidi Nutter**. Also to the sales staff. We would like to thank Sue Gunther, Jessi Hurlburt, Penni Lawler, along with Stefan, David, Rich, Chris, Lisa, Marlene and Sean of the A.P. crafts class. We would like to thank all of the other people who had small but surely necessary roles in putting the book together. Special thanks go to Mrs. Predmore, Mrs. Feyerabend, David Peterson, Tri-Town News Vardens, Taylor Publishing and of course, our faithful advisor, Mrs. Craver.
