Junior & Senior High School*

18 Juliand Street  
Bainbridge, N.Y.

*Welcome to our school.  
Established 1962.*

Ms. Palmer and D. Bartle love Science.

K. Champlin and Ms. Seymour share their smiles.

S-T's lunch group. Thanks Ms. Scott-Treacy.

Technology 101 with Mr. Feltham.

# Faculty & Staff

Mr. Northrup has a very captive audience.

Mr. Grigoli and J. Barnhart score big in academics.

Mr. McFee observes the careful precision of M. Feye and B. McCall.

Ms. Rhodes keeps things moving in math class.

M. McCall and Mr. Lanfear work together for the best outcome.

Working in the computer room makes ELA fun for all with Ms. LaFever.

There's never a dull moment in Ms. Mertz's Spanish Class.

In both soccer and American football the number 12 can be symbolic to the fans because of the support they give to the 11 players.

H. Flynn and Ms. Anderson have lots to do to run S.C.

Mr. Mattingly gives lots of encouraging words.

Ms. Shackelton makes science class interesting.

Ms. DuMond and Ms. McCarroll "Man the Fort" for studyhall.

Ms. Stafford is quite excited about first quarter math grades.

Ms. Scherhauer's excellence in teaching is appreciated by C. Cirigliano, B. Holden and A. Dann.

C. Luca and D. Ives are excited to participate in many of Ms. Degan's great CAMILabs.

E. Palmer and K. Sisson need a little food for thought while working with Ms. Hosier.

Stretching with Mr. Cirigliano and A. Davis.

Lunch help with Ms. Slack is appreciated by J. Wlasiuk and M. Ryan.

Ms. Frazier assists A. Decker in a fun lab.

Two super athletes, Yankees Don Mattingly and Michael Jordan Chicago Bulls, wore the same number, #23.

A young girl born and  
 put in this place  
 With a warm and  
 distinctive look on her  
 face  
 As she got older she  
 was not like the rest  
 She was kind of different  
 and her mother knew  
 best  
 Though her eyes may  
 despise you for who she  
 is  
 Her heart shines like the  
 sun  
 And she knows that on  
 this earth there is more  
 that could be done  
 Her achievements and  
 ambition make the stars  
 dance  
 But if some people  
 would listen and give  
 her a chance  
 To what she has to say,  
 as she's being critiqued  
 You just might find out  
 that she's simply unique  
 Did you know she's the  
 person you pass on the  
 street  
 Get to know her  
 She just may be the  
 greatest person you  
 ever did meet

"I've learned that no matter how thin you slice it, there are always two sides. I've learned that it's taking me a long time to become the person I want to be. I've learned that it's a lot easier to react than it is to think. I've learned that either you control your attitude or it controls you. I've learned that maturity has more to do with the types of experiences you've had and what you've learned from them and less to do with how many birthdays you've celebrated. I've learned that quantity is not as important as quality when it comes to best friends. I've learned that it isn't enough to be forgiven by others, sometimes you have to learn to forgive yourself. I've learned that no matter how bad your heart is broken, the world will not stop for your grief. I've learned that background and circumstances might have influenced who you are, but we are responsible for who we become. I've learned that you can't make someone love you, all you can do is be someone who can be loved. I've learned that no matter how old or wise you think you are, life never stops teaching" - unknown

Valedictorian  
Delray Canfield

Salutatorian  
Sarah Norris

The path I have taken in life, which has led me to become valedictorian, has been guided by the many people who have supported me along the way. The school and my family have been supportive of me and given me the opportunities to be successful academically. My many teachers have always been willing to assist me with whatever I needed, as have my classmates and the school staff.

My family, particularly my parents, has been a major part of my ability to do well throughout high school. My parents instilled values of hard work and dedication to my school work when ever since I was very young. These values have benefitted me throughout my life. Their continued support has encouraged me to keep working hard and to not stop at just "good enough."

I am thankful for all of the support and encouragement I have received and I know I could not have succeeded without it. I am honored to have had this support and to have come to be appointed class valedictorian. I would like to wish my classmates success in their lives after graduation, and hope they will be surrounded by supportive people throughout their lives just as I have been.

My years in B-G have been an adventure filled with wonderful memories. From the Guilford Play Day, to our 5th grade campout, to performing in Beauty and the Beast, to Prom, there have been many amazing experiences. I am thankful to have been surrounded by such supportive and loving people. To the faculty and staff of Bainbridge-Guilford School, thank you from the bottom of my heart for helping me in my educational and personal growth. You have taught me not only the foundation of education,

but more importantly, how to be a hard working, independent, compassionate person. To my friends, old and new, I never would have make it through all of the ups and downs without you. To my family, thank you for putting up with me. Your love and support has enabled me to accomplish many things. Finally, to Brooke Smith my best friend, thank you for everything. Words cannot describe how important you are to me. Good luck to all in the years to come, I wish you all the best.

Stevens and C. Clendening.

T. Petrutoni and A. Bauerle follow along while J. France, B. Shaw and O. Garror perform their part.

All dressed up and ready to perform.

C. Lyca, A. Stevens and K. O'Hara know the show begins in seconds.

Conductor Smith welcomes the audience.

The Grande River in Brazil is 845 miles in length.

M. Cliffe, M. Hartwell, A. Selfridge, G. Farrell, X. Cherniak, J. Cannistra, M. Brown and D. Scherhauser have the melody in this piece.

G. Haddad, O. Hawkins, D. DuMond, H. French, A. Gombach and E. Frost practice many hours to make this music perfect.

D. Hall and M. Harmon listen carefully for their cue.

N. Petrutoni, B. Roers, M. Anderson, D. Borowski and B. Hyzer get a little break before their next piece.

Row 1: K. Porter, A. Gombach, H. French, N. Petrutoni, G. Haddad, K. Chambers, G. Farrell, D. Scherhauser and M. Harmon. Row 2: J. Cannistra, O. Hawkins, A. Fox, D. DuMond, R. Holbert, K. # Envirothon

Each year, in addition to demonstrating knowledge in the areas of forestry, soils/land use, wildlife, aquatic ecology, and a current environmental issue, Envirothon Teams must prepare for an oral presentation. This year, the teams must present their solution to a problem based on the current environmental issue, "Sustainable Local Agriculture/Locally Grown." The following is a summary of the problem they are required to solve.

The Local Sustainable Food & Agriculture Foundation (LSFAF) is a non-profit dedicated to the development, promotion and education of sustainable agriculture for food and other local needs. LSFAF has recently received a former summer camp which has been unused for 13 years. They are looking for a group to turn this camp into a working and educational farm. Your group wants to operate The Farm and you must make a 10 minute presentation to LSFAF explaining how you will convert this camp into The Farm, a model of sustainable agriculture and local food. LSFAF will hear many presentations and select the group with the best plan for the most sustainable model of local food production and education.

The Boys Varsity Soccer team made its first post-season appearance in three years after a successful regular season. Adam Bauerle was the voice of the team on the field as the Speaking Captain and earned First Team All Star status in the MAC. Captain, Ryan Jones earned First Team All star for his defensive work, while Kyle Hanvey picked up the Second Team All Star selection for his mid-field work. Dan Norris opened his Varsity scoring account as a Sophomore, leading the team with nine goals. Senior and Captain, Brian Tequin switched from midfield to shore up our defense. With Jared Barnhart and Delray Canfield also graduating there will be 14 returning players next season. The future looks bright.

# Golf

This year was a great building year for our program. We had many new golfers come out, many of which are very young. At the start of the season it was a new experience for the team, going to matches, and playing under pressure, but as the season progressed and the players got more comfortable. We became a much better team. Our team scores dropped by more than 80 strokes, averaging out to more than 15 strokes a player which is a huge improvement for one season. In the years to come BG fans should really keep an eye out for the golf team to be performing the best it ever has.

We had a good season finishing 13-7 over all, 9-2 league. Winning the playoff to make it to the league finals. I really believe our improvement showed even though it was a loss in the sectional quarter final vs END, who a year ago we lost to by 36, and did not score a field goal. This year we led the whole game only to lose by a point, but still had an opportunity to win. I feel it showed our teams makeup, and our desire to compete.

## BGAH WRESTLING 2013-14

The 2013-14 Bears season was one of a new frontier as Harpursville was also merged with Bainbridge-Guilford and Afton. The transition was a smooth one and success followed. The dual meet record was 10-5 rebounding from a disappointing 2013-14 season. Highlighting the dual season was downing Deposit / Hancock 38-34, winning the MAC Division I with a 4-0 record, and making it to the Section IV Duals reaching the quarterfinals. As for the tournaments the Bears were runner-ups at Clyde Cole, MAC, and Class C tournaments. BGAH did win the Oneonta Rotary in its 25th year and became the first local team to do so. The year ended with a 2nd place finish at the sectionals.

Senior Jamie Griswold broke thru with a sectional title at 145 as well as sophomore Chris Cirigliano who won his second section 4 title. Both athletes were one match away from placing at the NYS Tournament. Also placing at sectionals were sophomore Josh Lindsey 6th at 113 lbs., junior Ryan McMahon 6th at 120, junior Jake Andrews 4th at 132, freshmen Madison Hoover 4th at 138, and junior David-Michael Robinson 5th at 138.

O. Possemato, K. Towndrow and A. Leggett take a little break.

Blaise Pascal died in the year 1662. Pascal was a French mathematician, physicist, inventor, writer and Christian philosopher. He was a child prodigy who was educated by his father. Pascal's earliest work was in the natural and applied sciences where he made important contributions to the study of fluids, and clarified the concepts of pressure and vacuum by generalizing the work of Evangelista Torricelli. Pascal also wrote in defense of the scientific method.

Thomas Jefferson died on July 4, 1826. The principal author of the Declaration of Independence, and the third President of the United States. John Adams, the second president, also died on the very same day.
