

Affordable Prices For All Needs

Pharmacy Programs

Whatever your need, pharmacy discount programs may be an option for you. These programs offer generic medications for a low price of \$4 for a 30 day supply to \$16 for a 90 day supply. These programs do not have any income requirements, however an enrollment fee may apply. The websites below list the discounted medications.

Pharmacy	Website
CVS	www.cvs.com
Kinney's Drugs	www.kinneydrugs.com

HAVING TROUBLE AFFORDING YOUR MEDICATIONS?

Your Guide To Affordable Medications!

**FREE, LOW-COST OR
DISCOUNTED MEDICATIONS!**

Getting the medicines you need is important for your health and well being. If you cannot afford them, your illness could worsen and become more difficult to treat.

Are you unable to pay for the medications you need to manage your health due to:

- Low income and high costs of medicines?
- Lack of healthcare insurance or prescription drug coverage?

If you answered yes to one or both of these questions, one of the programs listed in this guide may be able to help. These programs offer free, low-cost or discounted medications.

However, the first step is to tell your doctor that you are having trouble obtaining medications.

There are four programs that provide assistance with affording medications:

- Prescription Assistance Programs
- Discount Card Programs
- Local Pharmacy Discount Programs
- Discount Mail-Order Programs

You can participate in more than one type of program. Use this guide to help find the program that is right for you!

Long-term Medication Needs

Prescription Assistance Programs (PAPs)

PAPs are the best option for long-term maintenance medication needs. These are programs that offer free medicines for individuals or families who may or may not have health insurance or prescription drug coverage. However, these programs have income requirements that applicants must meet in order to qualify.*

Where Can I Find PAPs?

PAPs are available online, however, you can receive assistance with PAP enrollment at the agencies listed on the back of this pamphlet. Listed below are some easy ways to find PAPs.

Rx Assist
www.rxassist.org

NeedyMeds
www.needymeds.org

Partnership for Prescription Assistance
www.pparx.org

*Visit the websites above or contact one of the agencies listed on the back of this brochure to find out if you meet the income eligibility requirements

Short-term Medication Needs

Discount Cards

Discount card programs are an option for short-term maintenance medication needs. These programs provide discounts of 30%-50% off generic medications and do not have any income requirements. You may enroll in more than one program, however, check with your pharmacist about which card gives you the best discount.
