School Supply and Office Supply Price Guide

**Pricing is in effect from:
April 1, 2018, until March 30, 2019**

Discounts are in effect until March 30, 2019

(The Middle School/High School Art Bid is now a separate bid)

To: Participating Districts

From: Deb Bestwick

Date: April 19, 2018

RE: Bid award results for School and Office Supply Bid 2018-100

Enclosed are the "Successful Bid Award" reports that are the results of the awards by the DCMO BOCES Board of Education on April 12, 2018, for the School / Office Supply Bid. The Copy Paper bid awards were also issued on April 12, 2018. The bid number is listed below and must appear on all purchase orders sent to the awarded vendors.

#2018-100 - School and Office Supplies Bid

Bid Results

The bid resulted in the receipt of 9 bids. The bid committee met to review the bid analysis on March 29, 2018, to make a recommendation for the awards. The decision was made to award the bid to the overall lowest bidders for School / Office Supplies with specialty items being awarded to the lowest bidder for those items. This year the lowest overall bidders were **School Specialty and W.B. Mason**. School Specialty offered the most low bid School Supply items while W.B. Mason provided the most low bid Office Supply items. The bid committee discussed the award options, which included an option to award line by line to lowest bidders. This option would have resulted in an award to other vendors in conjunction with School Specialty and W.B. Mason, creating a potential of 7 purchase orders for each requisitioner and causing massive minimum order issues, therefore this option was rejected. The bid committee was presented with a second option of awarding the total bid to one vendor, School Specialty, however this would result in more No Bid items and higher prices for certain items. The third option was to award the bid split between the two vendors that offered the most low bid items. As it turned out, School Specialty was lower on School Supplies while W.B. Mason was lower on Office Supplies, making this the best option for award. The committee agreed unanimously that we award the bid split between School Specialty and W.B. Mason with a specialty award to the vendors that offered specialty products. The committee agreed that this was the best option.

We did discuss the poor performance of WB Mason last year. This was discussed at length and although there was a discussion about disqualification, the group did recognize that WB Mason did make an attempt to correct all the issues and did take full responsibility for the problems. With that noted, the group decided to give WB Mason another chance to redeem themselves with this contract. I will be monitoring the contract very closely and therefore need your help to ensure everything goes smoothly. If you should encounter any problems during the contract period please contact me directly and immediately so I can get the issue addressed and fixed promptly .

Discounts:

Several of the vendors offered discounts off their website or catalog. In doing a comparison between the two main awarded vendors, (School Specialty and W.B. Mason) we found that W.B. Mason provided the overall lowest prices when discounts were applied to a test group of random items. Therefore, W.B. Mason is the primary awarded discount vendor, and School Specialty is the secondary discount vendor. Lakeshore Learning and Triarco Arts were also awarded but should only be used for items that are unique to these companies.

It is highly suggested that if the item is not found in this bid that you search for the item utilizing the discounts from both vendors to ensure that you are getting the best possible price. Sometimes a 15% discount from one vendor is better than a 45% discount from another vendor. Please review the discount sheet for further information. Keep in mind that you do not take the discount provided by School Specialty off the website or catalog price, their discount is off their LIST PRICE, whereas W.B. Mason's discount is off their website or catalog price. The List Price is on the School Specialty website but is normally the price crossed out in red.

Reports

You should receive the following reports shortly. These reports will be sent to you prior to producing the final PO Attachments or exports for WinCap, NVision or FM. Please review these reports and make any changes necessary as soon as possible. These reports will be produced for each bid type.

1. District Summary Total – this report shows the requestor name and their total purchase amount, along with a grand total representing all orders received from your district.
2. Initial PO Attachments. This is sent to show the detail of each order for amendment, if needed.
3. No Bid Items, This PO Attachment sheet shows the items that were submitted by a district requestor through the requisition Portal which did not receive a bid. These items are listed on the sheet with a cost of \$.00, these items should be reviewed. **If you do not receive any sheets it means everything that was added to the bid database received a bid and will appear on the PO Attachments.**
4. **TDB Items**, these items will appear on PO Attachments with Prefix letters which will identify the items. You may need to quote, order, or hold these items. Prices on these PO Attachments may not be accurate. In our review of some items we have found that the prices submitted by the teachers were not correct. This may be due to using an out of date catalog or by mistake.

If you see any price that shows as \$0.00 on any reports or online this means the item in question did NOT RECEIVE A BID. The item was either discontinued or not available from the vendors. The No Bid items may have a suitable substitution within the bid awards.

Purchase Order Attachment Information:

The final “P.O. Attachments” and the district ordering summary will be sent to you in a PDF file once I have your final approval that all changes have been made and the information is good. The PO Attachments will show the items that are to be purchased from each award bidder, by each district requisitioner. The P.O. Attachments are like a Purchase Order Request, they list the items awarded; bid price, and are printed by Vendor for each requisitioner (teacher). The PO Attachment header information includes:

- ❖ The Vendor name, address and code;
- ❖ The Requisitioners’ name; School and Address [ship to and bill to addresses, in some cases, may be different].

The body of the report lists all the items that the district’s requisitioner requested that were awarded to the vendor listed at the top of the page. Each line item lists the quantity originally ordered or adjusted, item number, vendor product number, description, unit of measure, unit price and extended price. Alternate brand or unit of measure has been written into the original specification.

It should be noted that in some cases the original amount ordered will be adjusted to reflect the updated alternate unit of measure. For example, if the original unit of measure was “each” and the item award has a unit of measure of 12, a teacher originally ordering 12 will see an order on their PO Attachment for 1, which reflects the awarded alternate unit of measure.

The P.O. Attachment frequently becomes an attachment to a Purchase Order, making separate typing of POs unnecessary. Some districts simply type one purchase order for each awarded vendor with the total dollars being the aggregate of all the P.O. Attachments for that awarded vendor. A request to “see attached P.O. Attachments” is added to the PO. Vendors are aware that they are to pack and mark per teacher and invoice separately if requested, at no extra charge. There are no fuel surcharges, handling fees or shipping costs allowed on any invoice.

It should be noted that this year we bid all the items, including the add-on items. This means that 98% of the items captured during the requisition process should be either exported or on a PO Attachment with a

bid price. However, if you should see any items with a \$.01 price, it means the item was NOT BID. No bid items will be sent back to you for further processing.

TDB items will be provided on a PO Attachment. Some of these PO attachments will reference a vendor. This is the vendor that the teacher indicated was where they pulled the information from. Therefore, the item number (less the prefix) and the pricing, is from that vendor's website or catalog. Any PO Attachment with TDB – No Vendor means that the teacher did not provide a vendor for purchase.

WinCap

NOTE – WE WILL BE COMBINING THE FOLLOWING BIDS TO FACILITATE ORDERING SINCE THESE BIDS TYPICALLY HAVE THE SAME AWARDED VENDORS: These combined files will be available along with the separate files so Please only import one or the other file, DO NOT IMPORT BOTH FILES. – If you want separate imports please let me know.

**Combined Files: School / Office Supply Bid - 2018-100
Art Supply Bid – 2018-101
Learning Resources - Special Education Bid – 2018-107**

Because these bids are combined, you may need to adjust the PO Text to include information. On all the bid numbers and reference numbers that may be required. This can be easily done in WinCap within the Catalog Maintenance area under the Order Text PO Header or Footer area.

These bids will also be available separately – **DO NOT IMPORT BOTH TYPES OF FILES**

We have developed a few export/import files for use with WinCap that will facilitate the purchase order function. WinCap has the capacity to import our bid award Catalog, along with the requisitions collected from our website. The function has been tested with the Sullivan County BOCES CBO to ensure the process works properly. WinCap has a Universal Import for Purchase Orders, which we have been able to utilize with the help of WinCap to imported the data extracted from the PO Attachments produced by our Software package. This file is then imported into WinCap along with the bid awards, U/M and vendor imports. If you would like to utilize this import function please call or email me. **DO NOT CALL WINCAP.**

The exports will be available after May 7th, 2018, after the online requisition is closed down and final changes are made. If you need the exports sooner, please let me know. The May 7th date is only for requisitions being amended on the online website. Otherwise, these exports are available immediately.

Finance Manager – Nvision

NOTE – WE WILL BE COMBINING THE FOLLOWING BIDS TO FACILITATE ORDERING SINCE THESE BIDS TYPICALLY HAVE THE SAME AWARDED VENDORS: If you want separate imports please let me know.

**Combined Files: School / Office Supply Bid - 2018-100
Art Supply Bid – 2018-101
Learning Resources - Special Education Bid – 2018-107**

Because these bids are combined, you may need to adjust the PO Text to include information. On all the bid numbers and reference numbers that may be required.

We now have a workable download for Finance Manager and NVision with the capability of importing the same information as above into their financial package. However in order to make this work properly we need to have the building code and budget code for each end user built into our system before exporting the file. Please call me if you want to receive the export files.

Please note that if you are using NVision files can be imported into your program, however, you will need to send the file to Finance Manager first in order to have them configure the file into a format that can be imported into the program. This function will take approximately 2 weeks, so please factor this time into your schedule. Files will need to be sent to Ralph Scorza rscorza@financemgr.com

If you are a Infomatic user, and would like to import the data, please email me as we have a solution for that financial package that we are working on.

SUBSTITUTED ITEMS:

The vendor **must** supply the products to our original specification unless the vendor otherwise offered an alternate brand which was accepted and awarded. The alternate brands awarded are listed on the award sheets within the descriptions. Alternate unit of measures were also updated within the item's specification.

IMPORTANT BID INFORMATION

Please note that according to our contract the awarded vendors must follow these contract terms:

- Must deliver and invoice within 35 days of the date of the purchase order was received by the vendor. (If a vendor fails to deliver in this time, Please contact our office, as we may implement the Buy Against Clause)
- Pricing is fixed until 3/31/19.
- Must provide the brand they specified on the bid throughout the bid contract.
- Must not substitute any item unless they have advance approval from the district.
- Must not say an item has been discontinued, and offer you a higher priced item. – **PLEASE CONTACT US IMMEDIATELY** – Substitutions must be at the bid price.
- Must not include shipping, handling or fuel surcharges on **any** order meeting minimum.
- Minimum ordering amount is \$25.00 unless otherwise indicated on the vendor contact sheet.
- Purchase order can be combined with other items not on this bid to reach the minimum ordering amount.

SHIPPING NOTES:

GOOD NEWS – W.B. Mason does not have a minimum ordering amount. Therefore you do not need to combine orders to reach the \$25.00 minimum for order to W.B. Mason.

Both Lakeshore Learning and Triarco Art do not have minimum ordering amounts and provide free shipping

However, School Specialty has requested a **minimum ordering amount of \$25.00** to save on the cost of shipping and handling. In the past, we have seen PO Attachments generated for as low as \$0.40, which causes not only a problem for the vendors, but a problem for school districts as well, since districts may create a purchase order for each PO Attachment. **Please try and maintain this ordering amount by combining small orders.** For example, if all your first grade teacher orders are under \$25.00, these orders should be combined to meet the minimum order.

IMPORTANT

Basic Instructions:

1. It is suggested that you go through the District Summary sheet to audit them for correctness. In some cases, looking at the total amounts on the District Summary may give you some indication of a problem. This should be done before we produce the PO Attachments or exports. Please also review the any Add-on Excel sheet you may receive, these items should be at a minimal amount.
2. The P.O. Attachments will be issued once I have your approval. These reports are separated by Requisitioner. Please check and make sure you have a P.O. Attachment for each Requisitioner.
4. Check P.O. Attachments for small orders under the minimum amount of **\$25.00**. These orders should be combined, so that the minimum order amount is reached. This is not an issue with W.B. Mason.
5. If you need to make any deletions or additions to the P.O. Attachment(s), please make them by placing a line through the quantity, and writing "delete" or the new amount required. **DO NOT** cross out the BOCES Item Number. Fax these changes to me at 607-334-9848. A new P.O. Attachment will be issued with the updates within two days of receiving the requested changes. Changes to the P.O. Attachments may be made at anytime and for any reason. If you want to utilize the online web portal for additional ordering please let me know as we need to enable your district users. The Web Portal will be closed on May 7th, 2018. If you require the site to be opened later than this date please call me.
6. You may receive a Purchase Order Attachment that has **no vendor listed at the top**, this report shows items that are "**no bid items**". [Please refer to the "No Bid Items Report" for complete descriptions of these items]. There may be several reasons for an item appearing on this report, some which may be because the item was discontinued or there were no bids were received. Requisitioners should review these sheets and either, research the item to see if it may be available from the awarded vendor or find a substitution in the bid or catalog. If the items are available; the vendor's name, product source number and price (with discount taken, if applicable) may be written on the top of the PO Attachments and used in the same capacity as a normal Purchase Order Attachment.

ADD-ON INFORMATION

Within the Requisition process we provided a website for requesting “**Add-On Items**”. **Add-On Items** are items that were not found by the end user within the requisitioning booklets, but were required by the teacher or staff person.

The procedure for adding an item to the main bid was that the item had to be required in the amount of 10 or more (combined or by separate request) or had to have a value of \$20 or more and be appropriate for the commodity being bid. In addition the requestor had to utilize the correct catalog and procedures for adding an item to the add-on portal program. Items meeting this requirement were added to the main database of the bid.

Add-on items were broken into 4 types of categories selected by the teacher/staff person at the time of the request. Each category was given a prefix designation which was added to the item number for the purpose of identification.

- K - Item numbers beginning with K are items with a Known Vendor Name, however the total aggregated amount requested was less than 10 and therefore not bid.**
- H - Item numbers beginning with H are HOLD items, these may be items required at a certain time of the year, such as duckling eggs for a spring science class or items which may require additional approvals.**
- P – Item numbers beginning with P are ORDER items, these may be subscriptions that will be ordered immediately without a bid.**
- A – Item numbers beginning with A are TBD items, these items did not have a known vendor submitted to the website and may have inaccurate information.**

Items that did not meet bid requirements were added to the “To Be Determined” Data Base. This is a temporary database created so we could provide information back to schools on what was requested and captured during the requisition process. In creating this temporary database we ensure that items requisitioned through the requisition portal were not lost.

Within this database we also found some items that were questionable for placement in any of the available bids due to the item being categorized as expensive such as furniture, rugs, specialty equipment, or by having vague descriptions which prevented us from ensuring we would obtain the correct item. It should be noted that the teacher/staff person did not indicate a vendor for a majority of the items. In addition, we noticed that some item numbers listed come up with a different description than what was written by the teacher. For this reason we did not process these items and identified the items as TBD or “To Be Determined. For that reason we do not guarantee that this item information is accurate.

A few items on the bid received No Bids. This can occur for various reasons, ranging from the item being discontinued, to the specialty item not being bid by the specialty vendor. Any item that did not receive a bid will be sent back to you in an on a PO Attachment clearly identified as a No Bid Item.

Discounts

It should be noted that all non-bid items can be procured using the “Percentage Off Discount” as offered by each vendor. The discount percentage is listed on the Vendor Summary Page within this bid. It is highly suggested you utilizes the discounts from several vendors to ensure that you are getting the best possible price. Sometimes a 15% discount from one vendor is better than a 45% discount from another vendor.

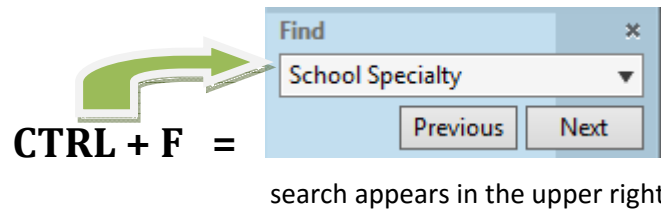

In doing a comparison between the two main awarded vendors, (School Specialty and W.B Mason) we found that W.B Mason provided the overall lowest prices when discounts were applied to a test group of random items. Therefore, W.B Mason is the primary awarded discount vendor, and School Specialty is the secondary discount vendor. Lakeshore Learning was also awarded but should only be used for items that are unique to Lakeshore Learning.
